- No. runners – 600

Traffic Management

- Traffic Management company TMO will be operating throughout the event along the entire course.
- TMO will organise the closures at both starts
- Diversionary routes will be in place where required
- 12 stop/go points will be in place to stop the traffic and allow runners to cross the road or turn right where this is necessary
- 20 additional Marshals will be in place at specific points along the route
- 230 will be in place along the entire route from next week making people aware of the event
- **Happisburgh, Walcott and Cromer all have a parking restriction order in place for the day - ORDER temporarily prohibiting the parking, waiting, stopping and loading/unloading of vehicles on the C634 Overstand Road, Cromer from C491 Cromwell Road to Cliff Lane, The C643 The Street, Happisburgh from its junction with the U19211 Beach Road to its junction with the U19680 Blacksmith Lane B1159 and the B1159 Coast Road from its junction with 1P252 Poplar Drive to a point 180m West of 1P253/10 St Helens Road in the following Parishes, Cromer, Happisburgh and Walcot.**
- An advisory diversion route will be in place on the day of the race.
- More exact details and plans are available if required.
- Wider communications are planned for next week to update the community

Drink Stations

There are 10 drinks stations planned for the route, these are at:

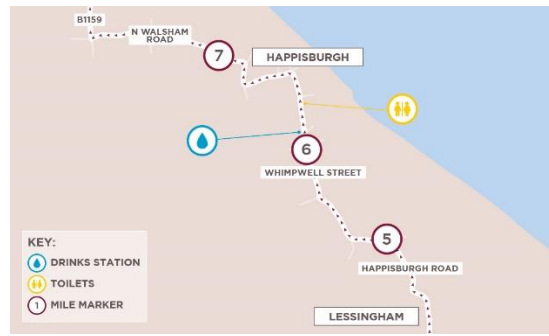

1. Ingham Swan Corner – in small dirt pull in
2. Whimpwell Street Happisburgh – corner of entrance to field/footpath
3. Walcott – outside DHC discovery point
4. Paston – wide area of path on crossroads
5. Mundesley – opposite the Ship
6. Trimingham – on grass at front of caravan site
7. Overstrand – on edge of layby close to school
8. Runton Road Cromer – grassed area opposite carnival field
9. Beeston – layby outside Beeston Hall school
10. Common lane Sheringham – half way up where road widens

Drinks stations will in place until the final runner passes by and we are able to use this information to provide you with some idea of the times in which you can expect runners to pass through at different points along the route.
